

Norb® BEAUTY™ 4 Watt Vanity Bulb

THE LOOK RIGHT LIGHT™ - G25 Style

What is a Norb BEAUTY? It's a **Nutri-Orb**, a unique "white" light with a specialized "sunlike" spectrum (minus the damaging U.V. rays) to provide near-perfect color rendering—so you'll look your best as you prepare for the day. What's more, this light spectrum is associated with feelings of happiness and increased energy. Can there be a better way to start the day?

We all use light to illuminate our mirrors as we prepare for the day—however, ordinary light bulbs are often poor at rendering color. So, when we go outside or go into an office area that has better lighting, our color (natural or from makeup) or our clothing (and how we pair it) can look quite different. By using **Norb BEAUTY**, we can ensure that our look is how we want it to be, natural and beautiful (or handsome).

Norb BEAUTY bulbs are unlike outmoded or poorly developed light sources, and this can affect how we feel (as well as how we look). People respond to light, and amazingly **the typical person spends 93% of their time indoors**. The trouble is—typical lights (bulbs and tubes) do not provide the light nutrition that we need, and we can become slow, sluggish, even depressed—particularly during wintertime when we receive even less natural light. . . hence the common term Winter Blues.

The **Norb BEAUTY** is designed to provide a light spectrum similar to sunshine (without the damaging U.V. rays). And, this can help you to feel happy and healthy, and to perform at your best. And, **Norb BEAUTY** can even help you to maintain your circadian rhythms and healthy sleep/wake patterns—particularly when paired with the **Norb SLEEP** bulb. You don't need to, **nor should you look directly into your Norb bulbs**—as is the case with all light bulbs. Simply use them as you would any vanity type bulb, to illuminate your mirror and your person.

Norb BEAUTY...THE "LOOK RIGHT" LIGHT™

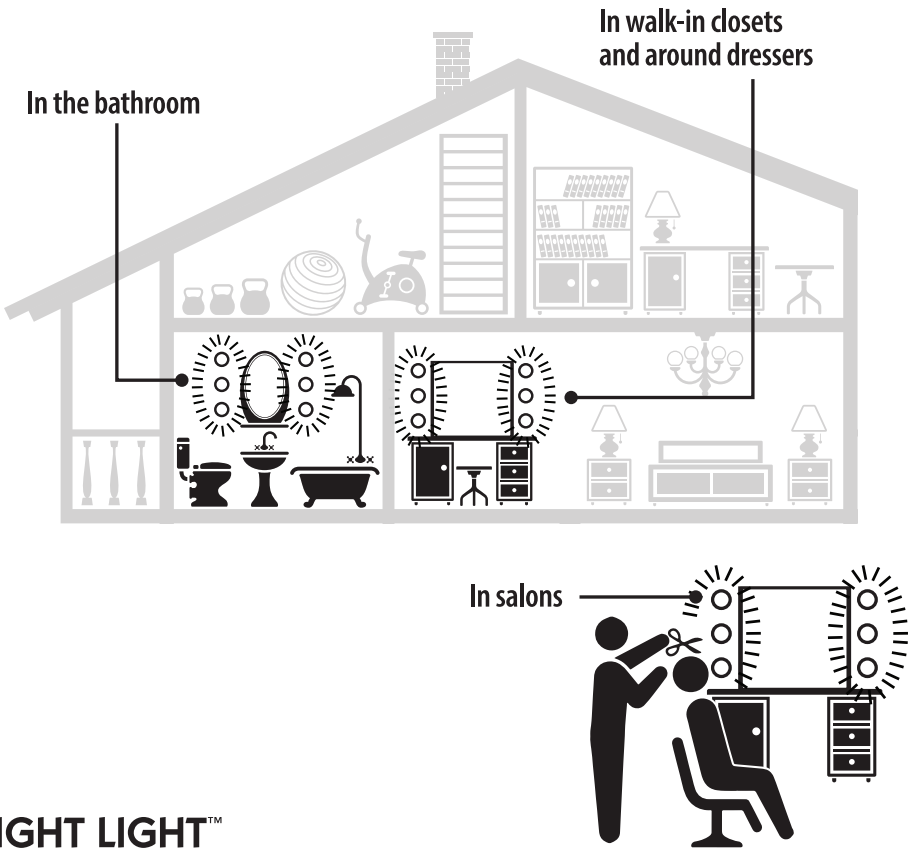

NOTE: Does not substitute for vitamin D supplementation. Not intended as treatment for disease or illness.

Directions for Use Norb® BEAUTY™ 4 Watt Vanity Bulb

The **Norb BEAUTY** should be used to illuminate mirrors and dressing areas. It is also ideal in commercial applications for stylists and makeup artists. The key benefit to these Nutri-Orbs is that they have a near perfect light spectrum. This means that when you leave your house to go about your daily routine, you'll have no surprises (in respect to the look of your makeup and clothing). The secondary benefit is that this same spectrum is similar to that of the sun (minus damaging U.V.), therefore these bulbs can help support natural sleep/wake cycle as well as positively impact mood (when used during the morning and daytime hours). They are ok to use later in the day, as they are relatively low intensity, however long exposure late in the evening might energize you a little, which is probably not what you want before retiring for bed. For optimal sleep we recommend the **Norb SLEEP** bulb for use in bedroom lighting and bathroom sconces. As with all light sources, do not look directly into the **Norb BEAUTY** bulbs, rather use them to illuminate your mirrors, face and clothing (as is the case with your current lighting products).

Where to place Norb® BEAUTY™ 4 Watt Vanity Bulb

WHERE	Above or around bathroom mirror, in walk-in closets, around dressers or vanities and in salons.
WHEN	From sunup until early evening.
HOW	Do not look or stare directly into the Norb BEAUTY (as is the case with all light bulbs); simply allow Norb BEAUTY to illuminate your space—no different than with any other lighting product.
SOMETHING TO CONSIDER	In addition to using your Norb BEAUTY , you may find added benefit by adding Norb SLEEP and Norb SMILE into your overall illumination and wellness program.
